

NEXT GENERATION TRAINING

AMERICA'S CUTTING EDGE

Advancing U.S. Machine Tool Workforce

ONLINE & IN-PERSON MACHINE TOOL TRAINING

There is an urgent and growing need in the U.S. machining and machine tool industry for skilled individuals – operators, engineers, designers and more – in the 30,000 machining companies across America. America's Cutting Edge (ACE) is a national initiative to restore the prominence of the U.S. machine tools sector. Machining and machine tools are at the foundation of America's manufacturing capability and its global competitiveness.

Visit AmericasCuttingEdge.org for more information and to register online.

WHAT WE OFFER EMPLOYERS

TRAIN

For the 12.2 million employed in U.S. manufacturing, stand out by offering high level training and credit towards apprenticeships, vetted by industry.

DEMO NEW TECHNOLOGY

Learn how tap tests can increase material removal rates, save time and money, and get the most out of your CNC machines.

RETAIN

CNC machining has excellent long-term employment prospects, with high tech applications and continuous learning opportunities for your employees.

America's Cutting Edge is a program supported by the U.S. Department of Defense Industrial Base Analysis and Sustainment Program from the Innovation Capability and Modernization (ICAM) office. DoD is utilizing the scientific expertise of the Department of Energy's Oak Ridge National Laboratory (ORNL), machine training resources with the University of Tennessee, and the workforce development leadership of IACMI—The Composites Institute.
